

KANSAS RACING AND GAMING COMMISSION

MINUTES – AUGUST 14, 2026

CALL TO ORDER (A.)

Chairman David Moses called the August 14, 2026, meeting to order at 10:00 a.m. The meeting was held at the Eisenhower State Office Building in Topeka, Kansas. Notice of this meeting was given to the public via the KRGC and Public Square websites and the agency's social media pages. Commissioners Brandon Jones, Larry Turnquist, Mike Fleming, and Natalie Haag were also present. Others present included Interim Executive Director DJ Lopez, General Counsel James Bain, Director of Security, Licensing, and Backgrounds Roger Bailey, Director of Casino Operations Rick Wilson, Government Relations Manager Randy Evans, Director of Administration, Audit, and Finance Brandi White, and other staff.

MOTION, APPROVE AGENDA (B.)

Commissioner Fleming (Haag) moved to approve the agenda as amended. Motion carried 5-0.

MOTION, APPROVE JULY 17, 2026 MEETING MINUTES (C.)

Commissioner Haag (Turnquist) moved to approve the minutes of the July 17, 2026, meeting. Motion carried 5-0.

MOTION, APPROVE CONSENT AGENDA (D.)

Commissioner Turnquist (Jones) moved to approve the consent agenda (seven items). Chairman Moses noted that one of the items on the consent agenda are the proposed waivers to the existing regulations applicable to the Eureka Downs project and that commissioners had received information in advance of the vote. Motion carried 5-0.

LOTTERY GAMING FACILITY REPORTS/ITEMS; BOOT HILL CASINO & RESORT (E.1.a.)

Ryan Deutsch, General Manager, reported:

- July 2026 revenue numbers compared to July 2025:
 - Total visitation was 34,014 patrons, down 5.39%
 - Total gaming revenue decreased 4.28%
 - Total slot revenue was down 3.03%
 - Table games revenue was down 13.18%
- July 2026 Sports Wagering revenue numbers
 - Retail Sportsbook Revenue \$28,888.00
 - Up 152.96% from July 2025.
 - Handle was \$81,630, down 14.93%
 - Hold was up 197.36%
 - Digital Sportsbook Revenue: \$4,899,684.00
 - Down 4.59% from July 2025
 - Handle was \$73,955,873, up 26.15%
 - Hold was down 15.93%
- Upcoming Events and Promotions:
 - Beat the Heat - \$25,000 Free Play and Cooler Giveaway – Saturdays in August
 - Dog Days of Summer Fan Giveaway – August 8

in Wichita that has golf simulators and that location holds leagues. General Manager Pritchett said that he was not aware of this and would look further into it.

- Commissioner Turnquist asked how the arcade is performing. General Manager Pritchett said that arcade was doing pretty well and that they added another 50 plus claw-type gaming machines last week.
- Commissioner Turnquist asked if the facility has had any issues with younger kids getting on the gaming floor. General Manager Pritchett said that they continue to monitor that. General Manager Pritchett further explained that the facility is acquiring hand-held ID scanners that will be used when IDs are checked so that if someone flees the scene the facility will still be able to report the individual.

Jeff Longwell, Chair of Gilley's Cares, reported:

- That the charity board met last Wednesday, August 5th, and finished a few projects. The board now has a presence on Gilley's website so that people can apply for grants. The board approved three different grants and is requesting that the commission approve their allocations: \$450 for a police department fundraiser, \$2,500 to Wichita Wagon Masters to help with the downtown chili cookoff, \$10,000 JAG-K grant.
- Chairman Moses noted that the commission is going to work on a system to better coordinate allocation requests and that this process would likely not necessitate Mr. Longwell's monthly attendance but rather as needed. Chairman Moses asked for clarification on the allocation of \$450 to the Wichita Police Department. Mr. Longwell explained that it was for sponsorship of the golf tournament fundraiser that the department is holding. Chairman Moses asked if the fundraiser is through the foundation or the police department itself. Mr. Longwell explained that it was through the foundation. Chairman Moses explained that he would not be required to abstain from voting on the allocation. Chairman Moses asked for more information on the JAG-K allocation. Mr. Longwell explained that it is nonprofit that provides services to at-risk youth of the Wichita Public Schools but is not a part of the school system itself. Chairman Moses said that he will not be required to abstain from voting on this allocation.

LIVE HORSE RACING
FACILITY LICENSEE
REPORTS/ITEMS;
GILLEY'S (E.6.a.)

Mike Weiss, General Manager, reported:

- When Eureka last operated parimutuel racing in 2009 the race meet licensee requested only \$68k. That figure reflected a very different era, nearly twenty years ago, and did not include the STAR bonds support, sponsorship dollars, or contributions from breed associations that help sustain operations at the time. Eureka is the oldest standing racetrack still standing west of the Mississippi river. Decades of deferred maintenance have taken a heavy toll. In truth, starting from a blank slate likely would have been easier but restoring Eureka Downs preserves a historic venue. Capital improvement costs are high because the needs are real. The Greenwood County Fair Association has focused on necessities not amenities. The Greenwood County Fair

Association goal is to make Eureka Downs a track that is looked forward to participating in.

- General Manager Weiss disseminated a booklet to the commissioners that illustrated the construction updates that have occurred at Eureka Downs and discussed why specific changes were made. The booklet also included track rules, the operating schedule, and vendors.
 - Commissioner Fleming asked who fills out the stall application. General Manager Weiss responded that it is normally the trainer. Commissioner Fleming asked if the trainer would have to have workers compensation coverage for the jockey. General Manager Weiss explained that they would need to have coverage not for the jockey but for the trainer's employees and any exercise staff they have. General Manager Weiss further explained that jockeys are independent contractors. Commissioner Fleming asked if the jockeys were insured. General Manager Weiss confirmed they were and that the track purchases jockey insurance for the races.
 - Chairman Moses noted that in the booklet he saw four race days and asked if there still plans for a six-day meet. General Manager Weiss said that all six days should appear in the booklet and affirmed that the race dates are October 17th, 18th, 24th, 25th, 31st, and November 1st. Chairman Moses asked when the fliers refer to added purse is that in addition to the money being made available by the state. General Manager Weiss explained that the nomination fees are pooled and are included in the purse. Chairman Moses asked using the Paul and Virginia Treadwell inaugural race, does the \$100k added purse mean that the total purse is \$100k or it is over \$100k. General Manager Weiss explained that \$100k is what comes from the state fund and the addition comes from individual horse nomination fees.
 - Chairman Moses said that he gathered from the discussion between General Manager Weiss and General Manager Pritchett that what was discussed last month, regarding Gilley's being permitted to simulcast races at Eureka Downs, that has all been resolved between you two. General Manager Weiss confirmed it was.
- General Manager Weiss has been working with KRGK Casino Operations Director Rick Wilson to assist with coordinating with the Greenwood County Sheriff's Office on racetrack security.
- Promotions are being developed and concepts such festivals, food trucks, giveaways, and co-promotion with Gilley's are being considered.
- October 31st is Breeders Cup Day and General Manager Weiss would like to request permission to bring the races into Eureka. It's a \$40M

General Manager Weiss agreed and said that he would explain a couple races.

- Chairman Moses noted that this will not be General Manager Weiss' last opportunity to talk about the purses but Director White will talk about how much is available to be allocated to purses and explain to what degree commissioners have to break down each purse or if they just need to approve a total dollar amount for purses.
- Commissioner Haag asked for clarification that when General Manager Weiss says that the race will not fill that he means it will not be run. General Manager Weiss confirmed that was accurate. Commissioner Haag asked what happens to the purse money for races that do not fill. General Manager Weiss explained that it returns to the fund. Director White confirmed that was accurate.
- Chairman Moses asked if General Manager Weiss could hold a race that is not limited Kansas-bred thoroughbreds but all thoroughbreds. General Manager Weiss says that he can but that the purse money would come out of the open purse funds. Chairman Moses asked if there is an open thoroughbred race being held so out of state thoroughbreds have an incentive. General Manager Weiss explained that the open race was not for \$100k. Chairman Moses asked whether an open thoroughbred race would run during the six-day meet. General Manager Weiss said that he was not planning an open thoroughbred stake. Chairman Moses asked General Manager Weiss to explain the difference. General Manager Weiss explained that the allowance race would have certain allowances, stake races are higher race, a trophy race. Chairman Moses said that the dual goal is to get the wow factor and to encourage people to become Kansas-bred. General Manager Weiss said that was accurate.
- Commissioner Turnquist seconded the chairman's comments appreciating the amount of work that has been done and said that the packet of information is very useful.

BREAK (F.)

Chairman Moses noted that now would likely be a good time to briefly break and allow audience members who are not interested in the new business item an opportunity to leave. Commissioner Fleming (Turnquist) moved that the commissioner briefly break.

RECONVENE
(G.)

The commission meeting returned to open session with Chairman Moses, Commissioner Jones, Commissioner Turnquist, Commissioner Fleming, and Commissioner Haag.

MOTION, AMEND
AGENDA;
(H.)

Chairman Moses (Jones) motioned to amend the agenda to move staff reports to prior to new business. Motion passed 5-0.

STAFF REPORTS
(I.)

Garrett Rogers, Paralegal, reported on both the Voluntary Exclusion Program and Sports Wagering Exclusion Program statistics for the month of July 2026.

Director of Administration, Audit, and Finance Brandi White reported:

- In July, the state's 3% share of the total handle on HHR machines was \$720,157.54 and the state's share of simulcast from Gilley's was \$6,319.50. The transfer to the Horse Breeding Development fund was approximately \$167,754.65. The Horse Fair Benefit fund received \$392,948.18. There was an August transfer that happened just this week of \$468,925.68. After that transfer, the Horse Fair Benefit fund balance is \$2,535,684.75. The August transfer to the Horse Breeding Development fund was \$200,074.35 bringing the total balance to \$1,300,654.76.
 - Chairman Moses asked for clarification on whether the July transfers are included in the total balances. Director White explained that due to the new business item on today's agenda she thought the commission would like to know not only the previous monthly transfer, but also what money had been transferred this month and the current balance of the funds. Director White confirmed that the \$392,948.18 and the \$468,925.68 are in the fund currently. Then there is also \$393,556.00 that KRGC has already paid out to the Greenwood County Fair Association. There are also some allowable background expenditures for Greenwood County Fair Association that have come out of that fund and that gets to the current balance of \$2,535,684.75. Chairman Moses asked if the August money would be available to be used by Eureka in September or is that calculated in what has been transferred to them. Director White explained that was part of her recommendation and that KRGC waited as late as it possibly could for the statutory August 15th transfer deadline to capture the previous weekend's revenue. The August and July numbers will be a part of the recommendation

Interim Executive Director DJ Lopez reported:

- Commissioners have heard from general managers from Gilley's and Eureka Downs.
- KRGC has identified veterinary stewards and a director of operations. Over the past weeks, General Counsel Bain has been working on employment contract language. When selecting candidates, KRGC staff considered whether they had a connection to Eureka Downs. Only one steward hired did not have a connection.
 - Commissioner Turnquist asked how many personnel KRGC will have at the races. Interim Executive Director Lopez responded that there is not a specific number but that enough staff are present to ensure that the races are run smoothly.
 - Chairman Moses asked what it means that KRGC has identified stewards and a director. Interim Executive Director Lopez explained that the agency has identified who they would like to offer the position to and are currently in the contract phase. Chairman Moses noted that the rules for Eureka are different than for the casinos and asked if the commission would need to do backgrounds on all these people. Interim Executive Director Lopez explained that if they have been granted a license in another jurisdiction KRGC has the ability to give a reciprocal license. Chairman Moses asked if the commission has to do backgrounds on the people that General Manager Weiss hires. Interim Executive Director Lopez confirmed the commission does. Chairman Moses asked when the commission plans on starting on that process and when is it anticipated having to consider those backgrounds. Interim Executive Director Lopez said that the application process has gone out on the KRGC website and staff are ready to begin the process once an application is received. Chairman Moses asked if this backgrounding and licensing process has been explained to General Manager Weiss and that time is of the essence. Interim Executive Director Lopez said yes and that is why staff have opened the process as quickly as possible as well as planning to open a licensing office at Eureka Downs so that anyone that needs to be licensed for the races can have the opportunity. Chairman Moses asked if Director Bailey was confident that this would all be completed by the September meeting. Director Bailey said that he was and that KRGC has dedicated personnel and resources specifically for this and the agency's focus is to expedite the licensing process for applications that are received. Commissioner Haag asked if the same reciprocity that is available for KRGC hires is available for employees of Eureka Downs. Interim Executive Director Lopez confirmed the agency can. General Counsel Bain clarified that Interim

Executive Director Lopez is referring to temporary licenses that can be issued under reciprocity due to the nature of horse racing and the timeline. Interim Executive Director Lopez noted that the licensing office will be operating on race days so if anyone needs to be licensed day of it would be possible.

- There is a total of 288 Kansas-bred registered horses. 237 of those horses are quarter horses, 46 are thoroughbreds, and five are paints.
- Quoc Lam had a status hearing set for September 3rd.
- Derrick Stubblefield is set for an in-person plea hearing on September 17th, 2027.
- Nebraska election officials are reviewing a petition of over 201,000 signatures that could online sports wagering on the state's ballot this fall. Currently, Nebraska only allows sports wagering in brick-and-mortar casinos.
- Colorado passed a bipartisan bill that limits six deposits per day into sports wagering apps and patrons will no longer be able to use credit cards as a payment method. They are experiencing a large problem gambling situation.
- The next commission meeting is scheduled for September 11, 2026, in Topeka at 10:00am.

COMMISSION ITEMS –
OLD BUSINESS (J.)

There was no old business.

COMMISSION ITEMS –
NEW BUSINESS;
ALLOCATION OF
FUNDS TO EUREKA
DOWNS
(K.1.)

Director White said that she wanted to clarify a few things that were said previously. Director White explained that what she is presenting today is a recommendation of the remaining fund balances allocation. There has been no final decision made. The commission gave Director White approval to make payments and disbursements from these funds but due to how these funds will be allocated staff wanted to bring this before the commission for approval. When General Manager Weiss talks about the \$1.2M for purse money and other funds, that recommendation is what has been brought before you today for approval. What has been shared with the fair association was not final decision and is subject to any changes the commission would like. Director White said that she believes that the numbers General Manager Weiss referenced are from an August 5th recommendation that did not include the numbers from this weekend's transfer, any difference in numbers is likely due to that. Finally, Director White noted that General Manager Weiss mentioned the \$68k in operating expenses with the last county fair meet that Eureka Downs ran and said that she wanted to make clear that \$68k is the allocation that the KRGC made it was not the amount that was requested. KRGC was not able to fulfill the entire request and so historically KRGC has not been able to meet all operational funding needs that have been requested.

- Chairman Moses asked if the comment that KRGC is not able to meet the needs was a decision by KRGC or if that was another way of saying that there were not enough funds available to meet the need. Chairman Moses asked if it was fair to say that Director White and staff have done everything possible to fulfill all of the requests and needs of Eureka Downs but there is not enough money or supporting documentation to pay out. Director White responded that there is not enough money to meet all of their operational, capital improvement costs, and purse supplement requests available in the fund. Chairman Moses noted that the funds that are available are exclusively the funds that are generated from Gilley's. Director White confirmed that was accurate. Chairman Moses commented that when Gilley's does better the fund does better and that KRGC has no control over that. Director White confirmed that was accurate and shared that there was a caveat. Director White explained that the Ks-Breeding Development fund had a holdover balance from 2009 and Director White is not sure exactly what that balance is for. Director White shared that she knows that KRGC had grants in place with regents' institutions and that not all of them were able to collect all of their money because they did not submit their deliverables on time, but she suspects that is what the holdover balance is from. Chairman Moses asked if the previous distribution Eureka Downs was in addition to is it included in the final figure. Director White explained that it was in addition and that total allocation, if the commission decides to follow the recommendation, would be \$1,379,887.34. Chairman Moses asked if the August numbers were included. Director White said that they were. Chairman Moses asked if the September funds would be available for operational expense. Director White said that staff's recommendation is to not make the September funds available for operational expenses in the event there are emergencies. The 25% that comes off for capital outlay/improvement, staff is fine with that being paid out. Chairman Moses noted that we do not know what that amount is and asked if staff would know by end of August. Director White explained that staff would know by the 15th of September. Chairman Moses asked if there would be additional funds available after September 15th. Director White confirmed there would be.

KRGC Director of Administration, Audit, and Finance Brandi White presented the staff agenda memorandum regarding the proposed allocation of the HFRBF and KBDF for a fall 2026 race meet at Eureka Downs.

- Commissioner Haag asked what the gap is between the \$1.38M and the authorized expenditures. Director White explained that the total expenditures that KRGC has marked as approved and eligible is \$1,624,065.76. Chairman Moses asked for clarification that there are requests from Eureka that have not been approved by staff because they do not qualify under the definition of capital improvements or

insufficient information was provided to KRGC to distribute. Director White confirmed that was correct and further explained other expenses were marked as ineligible because on July 1st an email was sent to the fair association from KRGC communicating the criteria used in 2009 and that language did not allow for expenditures from HFRBF that would generate additional monies for the fair association. Chairman Moses asked if those rules were based on statute and regulation. Director White confirmed they were. Director White noted that there were multiple submissions from the fair association and staff did not issue a determination until the final submission on July 31st when supporting documentation was not included or it was not requested from the fund, that is when those types of items became unapproved not before then.

- Commissioner Turnquist asked if Director White feels the fair association will have adequate funding to carry out their races. Director White said that it is her opinion that there are adequate funds available, the fair association will have to make decisions and those will likely not be easy.
- Chairman Moses asked if any members of the public would like to comment on this new business item.

- Paul Treadwell approached the podium. Mr. Treadwell said that he saved his comments for a challenge in racing that no one has talked about yet, drugs in horses. Mr. Treadwell said that it is a real problem out there, a problem for all the states, and will certainly become a problem for us. Mr. Treadwell said that he thinks that we take a very diligent look at it and work hard we can stop it from happening in Kansas and the time to stop it is now, not after it gets started. Mr. Treadwell said that he thinks that there needs to be a great effort by the KRGC to make it as hard as possible to get the drugs out of horse racing. There are a lot of efforts throughout Oklahoma and New Mexico. Some of them are very successful and some not so. Mr. Treadwell further said that we have a unique opportunity here because we are starting so if we can stop it from every starting that is the best approach. Chairman Moses asked Director White if there was anything built into the requests from Eureka that address the concerns that Mr. Treadwell has shared. Director White explained that it is not built into efforts by the fair association, but it is built into the drug testing budget that KRGC has. Chairman Moses encouraged Mr. Treadwell to share his concerns with Interim Executive Director Lopez so that the commission can stay aware of horsemen's concerns. Interim Executive Director Lopez explained that KRGC current plan is to get advisement from KRGC's chief steward and vet, review the ARCI model rule, take in stakeholder comments and then come up with a policy.

MOTION, APPROVAL
OF ALLOCATION OF
THE HORSE FAIR
RACING BENEFIT AND
THE KANSAS
BREEDING
DEVELOPMENT
FUNDS
(K.2.)

Commissioner Jones (Fleming) moved to approve the proposed allocation of the horse fair racing benefit and the Kansas breeding development funds as described in the staff memorandum. The total amount transferred from the Horse Fair Benefit fund would be \$2,932,643.89 and from the Horse Breeders Development fund \$650,827.38. Motion passes 5-0.

PUBLIC COMMENTS
(J.)

Peach Madl, Executive Director Kansas Thoroughbred Association and the HBPA, said that open races are most of the on a racetrack. The trainers and horsemen from out of state are going to be our primary revenue generator. The Kansas-Bred races are statutorily required to hold one race per breed a day but those races will not fill for several years. Ms. Madl explained that information is derived from the KS-Bred registry. Races are marketed through a condition book and have to have purses in it. Ms. Madl said she cannot market a race without a condition book or a stable application. The breed registry numbers are the totals that are registered the majority are breeding stock and are not eligible animals for racing. The foals are the ones that are eligible to race. Since Kansas started in 2025, there are few of us who bred in 2024 to have a 2026. Since the law did not happen until 2025 we did not get an opportunity to invest. It takes a while to choose who you breed to. If the breeding registry is 280 now, there are probably only 50 foals. You will not see the foals until fall or December because you cannot register until you have your breed association registration. And we all know quarters take a little bit of time, jockey clubs do not get their information until the fall to do the microchipping. You will not see your crop until the first of next year. Ms. Madl said that she thinks it would be fun to separate the breeding stock and eligible foals. Ms. Madl thanked Gilley's, General Counsel Bain, Interim Executive Director Lopez, and thanked Chairman Moses.

- Commissioner Haag noted that Ms. Madl said that she began recruiting based on the condition book. How far ahead of race days do you normally do that. Ms. Madl responded that it is usually at least 60-days but preferably 90-days.
- Chairman Moses asked General Counsel Bain to walk the commission through how they receive a condition book. General Counsel Bain said that the way he envisions the condition book approval happening is that it would be submitted from Eureka Downs. Now that the purse money has been allocated, the fair association will complete their work and submit their proposed condition book to staff. Once the parties come together and have a condition book ready for commission review a special meeting could be held to review and approve the condition book.

Chairman Moses asked if the meeting would need to be in person. General Counsel Bain said that they do not need to meet in person but rather that it could be done virtually and still be compliant with the Kansas Open Meetings Act. Chairman Moses asked if it was worth setting a meeting date now. Interim Executive Director Lopez said that he believes that General Manager Weiss and the fair association understand that time is of the essence and will get the condition book submitted in short order. Chairman Moses commented that it may be best to schedule the meeting now while everyone is able to check their calendars. Director White advised that if the commission were to take this direction that they also provide the fair association with a deadline by which to have their final submission to the commission to ensure staff has enough time to review and discuss with industry partners. Chairman Moses asked for General Manager Weiss if he has a preference. General Manager Weiss said that he would like to have the condition book approved prior to the September 11th meeting. Commissioner Turnquist asked how much notice has to be provided when setting a meeting date. General Counsel Bain advised that 48-hours is sufficient notice. Chairman Moses said that he was convinced that there was not a need to set a meeting date but he would still like to set a deadline for the fair association to submit their final condition book to KRGC. Commissioner Turnquist said that he did not know that was needed because the general manager is aware there is a deadline and that he will likely submit the book as fast as he can. Chairman Moses asked that General Counsel Bain and Director White explain to General Manager Weiss what staff needs for the condition book review. Director White said that staff needs the final condition book in its final format with its final information by August 21st. Chairman Moses asked General Manager Weiss if that would work for him. General Manager Weiss confirmed it would.

Kurt Eck, with the Kansas Quarter Horse Racing Association, asked for a point of clarification that what has been submitted by the fair association is \$300k more than what has been approved and is available for them to use this year. Director White responded that is what KRGC has designated as eligible expenditures and that there was actually more, 504,229.49, that did not meet the eligibility requirement which brings the total of submitted expenditures to \$2,128,295.25. Mr. Eck said that to be clear the fair association will have to cuts to operational expenses or cuts to purse money to come under what has been approved. Director White explained that cuts to purse money is not optional because the commission just designated the allocation to purse monies at \$1.2M and the only amount that KRGC designated as eligible for reimbursement from the Horse Fair Racing Benefit fund is that \$1.6M Director White believes. Director White said that the fair association will have to make

an assessment of how they are going to spend funds and whether or not and how they can generate more funds. Mr. Eck said the other point that he would like to make is that the condition book is the industry as far as the horsemen care. Mr. Eck said that races in the condition book should be written in a manner that horses will be able to compete in . Mr. Eck says that he understands the idea of a marketing gimmick to put a race in that will not fill. That does not do horsemen any good. Mr. Eck said he would like to make sure that horsemen have an opportunity to look at it and that the races will benefit the horsemen in 2026. If the races that are offered don't fill and the purse money goes back into the fund for 2027 or beyond does not benefit the horsemen for this year. Mr. Eck said that when considering races that will be filled so that Kansas horsemen can get the benefit of what is in that fund. Chairman Moses noted that staff do intend to collect industry stakeholder comment after receiving a proposed condition book. Chairman Moses said that purse money for races that do not take place are statutorily required to return to the fund. Director White confirmed that was accurate and that any reallocation of those funds to expenditures would have to be reapproved by the commission.

MOTION, EXECUTIVE
SESSION;
CONFIDENTIAL
BACKGROUND
REPORTS
(L.2.)

Commissioner Fleming (Jones) moved that the Commission go into executive session for the purpose of reviewing confidential background reports presented today by the commission's security division. In addition to the commissioners, the confidential background reports portion included the executive director, general counsel, and director of security, licensing, and backgrounds. The total time for the executive session was anticipated to be five (5) minutes until 12:23 a.m. No action is to be taken in executive session, and the subjects discussed are to be limited as previously described. A full record of this motion is to be maintained as part of the permanent record of the Kansas Racing and Gaming Commission. At the conclusion of the executive session, the meeting is to be continued in open session. The motion carried 5-0, and the meeting was adjourned to executive session at 12:18 p.m.

RECONVENE
(L.2.)

The commission meeting returned to open session at 12:23 p.m. with Chairman Moses, Commissioner Jones, Commissioner Turnquist, Commissioner Fleming, and Commissioner Haag.

MOTIONS ON LICENSE
APPLICATIONS
(N.)

Commissioner Turnquist (Jones) moved to *approve the 141* license applications from the August 14, 2026, list of background reports referred to the commission for action. The motion carried 5-0.

OTHER BUSINESS
(O.)

There were no other items for discussion or motion.

ADJOURNMENT
(P.)

Chairman Moses stated that the September 11, 2026, commission meeting will begin at 10:00 a.m. for an in-person meeting in Topeka, Kansas.

Commissioner Fleming (Turnquist) moved to adjourn the meeting. Motion passed 5-0. The meeting was adjourned at 12:24 p.m.
