 - General Manager McKain noted that there were roughly 450 people in attendance, the performance went well, and that patrons made comments about wanting the performer to return.
- COVID-19
 - No cases in February and no cases in March.
- Commissioner Fleming recalled reading that there were plans to relocate the highway bypass and asked if this would have any effect on the casino. General Manager McKain responded that there has been a highway reconstruction project for about 20 years. As the project approached Pittsburg, there were concerns about where the highway would be placed. Currently, the Kansas Department of Transportation is reviewing whether the planned route is best, or whether a secondary route should be taken. General Manager McKain said that he believes that it will be another several year

process to have the survey done and determine the best way, but that the overall project is on hold.

- Chairman Moses asked whether the bypass project would require the Kansas Crossing Casino to relocate. General Manager McKain explained that there is a two-lane highway that cuts through Pittsburg that KDOT is wanting to widen and confirmed that the widening of the highway would not require the facility to move. General Manager McKain clarified that the only concern the facility manager would have is the amount of area that would be needed for the highway extension.

HISTORICAL HORSE
RACING FACILITY
LICENSEE
REPORTS/ITEMS;
GOLDEN CIRCLE
(E.5.a.)

Scott Beeler, Golden Circle Representative, reported:

- The demolition for the Golden Circle HHR facility is virtually complete. Construction is underway.
- The footings and the foundation for the Ghillies is finished.
- The footings for the previously reported 60sq.ft. extension have been put in place.
- The initial interior design plan is complete and will be fluid throughout the construction project.
- All interior and exterior plans have been signed-off by the Sedgwick County fire department.
- Golden Circle, Inc. staff have been in negotiations with historical horse racing machine manufacturers, staff have not gotten to the contract stage, but the process has been positive. Mr. Beeler said he expects to have more to report on this topic in the near future.
- Chairman Moses recalled seeing in the Wichita Business Journal an article regarding the Golden Circle project and asked if the reported opening date of September 2025 was accurate. Mr. Beeler responded that he thought he reported that at the previous commission meeting and that it does remain the target date. Chairman Moses also recalled that Courtney Barnaby was identified in the article as the General Manager for the facility. Mr. Beeler responded that he has effectively served in that capacity, but Golden Circle, Inc. has not gone through the process of review for any General Manager. Mr. Beeler further stated that as of today, Mr. Barnaby is a consultant. Chairman Moses asked as a follow-up question if Mr. Beeler could provide a brief update on how preparations for the licensing background investigations are going. Mr. Beeler responded that it is a long process and that there are interviews going on for all of those positions. Once the General Manager is selected, vetted, and licensed, that person will have a lot to say about who is hired on their staff, and so Golden Circle, Inc. is leaving some leeway for that to occur. At one time, it was expected that Mr. Barnaby would be the General Manager, but Mr. Barnaby is

still considering whether he wants to make the permanent move or just serve in the current capacity. To summarize, it's underway.

- Chairman Moses recalled last month that there was an addition to the GC Charities board and asked if there were any updates on expanding the board or additional members. Mr. Beeler responded that he can only repeat what the charity chair has indicated and that is that they have an intention of having a fifth board member, but they have not settled on anyone.

STAFF REPORTS
(I.1. and I.2.)

Garrett Rogers, Paralegal, reported on both the Voluntary Exclusion Program and Sports Wagering Exclusion Program statistics for the month of February 2024.

Government Relations Manager Randy Evans reported:

- SB432: regarding the prohibition of sports wagering advertising online. The bill has not had a hearing since the last commission meeting and was introduced on February 1st.
- SB458 & HB2606: both regard civil asset forfeiture. Both bills have passed in the originating body and have been sent to the other body. There has been one hearing. There is disagreement on parts of both bills, and it could end up in Conference Committee.
 - Chairman Moses asked for a summary of the key differences between the bills. Mr. Evans responded that the Senate bill allows for a jury trial, changes the burden of proof from preponderance of the evidence to clear and convincing evidence, and it allows for the seizing agency to pay the defendant's attorney's fees if the seized property is returned. Mr. Evans further explained that the House bill prohibits Federal adoption, it removes simple possession as one of the charges, and requires that the case be decided by the court and does not allow for a jury trial. Chairman Moses asked if KRGC has formally weighed in on the legislation. Mr. Evans responded that KRGC staff has testified in opposition to the Senate bill and provided neutral testimony on the

House bill. KRGC is opposed to the provisions of the Senate bill that would require the seizing agency to pay attorney's fees and the change to clear and convincing because proceeds from the illegal gaming machines are often comingled with legitimate business funds and distinguishing comingled monies would be difficult.

- HB2219: would allow for gambling losses to be written off on state income taxes. The bill has not yet had a hearing.
- SB535: would inadvertently create a loophole for manufacturers of gaming equipment to circumvent the licensing process by selling their equipment through an already licensed vendor. This bill was recently introduced and has not yet been reported to the commission. KRGC Staff Attorney James Bain will be testifying in opposition to this bill, arguing that in order to protect the integrity of gaming in Kansas, KRGC must be able to do background investigations on any entity trying to supply gaming equipment that would be connect to the central computer or is on the gaming floor.
 - Commissioner Fleming asked who the proponents of this bill are. Mr. Evans responded that Senator Mike Thompson proposed the bill, but list of proponents and opponents has not yet been issued.
 - Commissioner Turnquist asked if Mr. Evans is anticipating the Attorney General to become involved. Mr. Evans responded that they could become involved and that he thinks that after Monday there will likely not be anymore action on this legislation because of the possibility that this could require a review of the Kansas Expanded Lottery Act.
 - Chairman Moses asked Mr. Evans if those who want to testify at a legislative hearing have to sign-up in advance? Mr. Evans confirmed that was accurate, but that the deadline for sign-up was at 10:30am on March 15th.
 - Chairman Moses noted the use of the word “inadvertently” and asked Mr. Evans where that was coming from. Mr. Evans responded that it was from KRGC legal staff. Chairman Moses asked if the commission's position is that this is not an intentional circumvention of the licensing process, but rather a mistake that can be easily fixed. Mr. Evans responded that those who have Senator Thompson's ear may have worded this legislation purposefully, but that the senator's actions are inadvertent. Chairman Moses clarified that the legislation is intentional, but the senator

may not be aware of the consequences of the legislation. Mr. Evans confirmed that is his opinion.

- HB2622: would amend the Kansas Indoor Clean Air Act to prohibit smoking in lottery gaming facilities. This bill has only had one hearing and has not had a hearing since the last commission meeting.
 - Chairman Moses recalled a legislator who was encouraging a compromise and asked if Mr. Evans knew if there had been any of those discussions. Mr. Evans responded that he did not know.

Executive Director Brownlee reported:

- Introduced the KRGC enforcement agents of the Kansas Crossing Casino and the visiting agents from Hollywood Casino.
- On behalf of KRGC, thanked General Manager McKain for hosting the commission meeting.
- Missouri and Oklahoma have not passed sports wagering, although both have sports wagering bills in their legislatures.
- Commercial Casino in the United States won \$66.5 billion from gamblers in 2023. This was the industries best year ever and was a 10% increase from 2022 revenues.
 - Commercial Casinos doe does not include Tribal facilities as those figures are not yet available. It is anticipated that once the Tribal facilities are accounted for 2023 gaming revenue will be around \$110 billion.
 - Slot machines account for about 50%
 - Table games accounts for about 17%
 - Sports Wagering account for about 17%
 - Internet gaming accounts for about 11%
- The top four gaming states are Nevada, Pennsylvania, New Jersey, and New York
- On the Las Vegas strip, less than 27% of revenue comes from gaming. In 2023, 33% of their revenue came from hotels and about 18% coming from food and beverage.
 - It has been a recent trend on the Las Vegas strip that casinos are offering different kinds of amenities to patrons. And these revenue figures show where that's headed.
- In a report from Gaming Research and Consulting Firm the slot machine manufacturers Aristocrat has the highest market share of gaming machines, followed by Light and Wonder, IGT, Konami, and Everi in that order for market share of gaming machines. All of those entities are licensed by KRGC and do business in Kansas.

- Commissioner Turnquist asked whether there would be discussion on the recent event that occurred at Hollywood Casino. Executive Director Brownlee confirmed that it would be covered during executive session. Chairman Moses followed up asking if General Manager Garvey needs to be included in the executive session. Executive Director Brownlee responded that he did not believe it would be necessary.
- The next commission meeting is scheduled April 12, 2024, in Topeka, KS. Commissioner Jones has a conflict with that date and will not be able to attend.
