- Chairman Moses recalled that in the south-central Kansas media markets the smokeless casino legislation is getting a lot of chatter. The facility just finished a major remodel that depending on how the legislation is written, may need to be redone. Chairman Moses asked General Manager Giardine if they would like to comment on this topic. General Manager Giardine deferred to the facility's CEO and legal counsel; Chris Reedy. Mr. Reedy explained that hundreds of thousands of dollars were spent on the air handling equipment and original design, there are areas of non-smoking, there are all sorts of planning and thought process going out with respect to that matter. Chairman Moses followed up stating that he presumes that means there will be some attempts at educating those that are going to be considering changes about all the things that have already been done regarding that issue. Mr. Reedy confirmed that was accurate. Chairman Moses commented that he was curious because it seems that there is significantly more attention this year than last year. General Manager Giardine commented that if any employee has a request the facility will work with them; there are several positions that do not have to be in the

smoking area. The facility would make a medical accommodation request for the employee and go through that process.

- General Manager Giardine recognized a few individuals for their actions on December 2nd. Beverage Lead Michael Montoya, Director of Security Zam Marvilla, KRGC Agent Michael Robbins, and KRGC Agent Eric Lalicker recognized a patron in need and took swift steps to help that patron. Agent Robbins used a AED machine and started performing CPR compressions on the patron, Director Marvilla switched out with Agent Robbins to continue the CPR until first responders were able to arrive. The patron was transported to Dodge City Hospital and eventually transferred to a hospital in Colorado where the patron was from. Last Friday, the facility was contacted by the patron's daughter thanking all who were involved in saving her father's life. The doctor in Colorado said that if CPR had not been started as quickly as it had, her father would not have survived.

Scott Beeler, Golden Circle Representative, reported:

- Construction is winter-tight. Now working on electrical, plumbing, duct system, and the internal wall systems.
- The project is on budget and on time for a late 2025 opening.
- A lot of the contracts are still in negotiation and will be submitted to staff once there are signatures on them.
- Regarding the Chairman's question on the smokeless casino legislation, the facility licensee is in a different situation for a number of legal reasons, but they believe there is some ambiguity in the law. The facility is designed in terms of its construction to have the proper handling systems in the event that the facility is deemed to fit within one of the exceptions under the Clean Air Act. Mr. Beeler explained that at the time the Clean Air Act was enacted there was no such thing as a Historical Horse Racing facility, but believes that the spirit of the act in terms of granting exceptions was for gaming facilities.
